

## FROM THE REGISTRY

The American Saddlebred Registry Board of Directors approved the following rule changes with an effective date of October 30, 2017. Note: the approved new language is in ***bold italicized*** text. A complete list of all ASR Rules and Regulations is available on our website at [www.saddlebred.com](http://www.saddlebred.com), Registry, Governance.

### **C. 4-H FOUNDATIONS/ ASSOCIATION YOUTH CLUBS/ HUMANE SOCIETIES / THERAPEUTIC RIDING CLUBS**

4-H Foundations, Association Youth Clubs, Humane Societies, and Therapeutic Riding Clubs, provided proper verification of the group's authenticity is presented to and accepted by the Registry, are exempt from transfer of ownership fees for horses being transferred into their ownership. **a.** Therapeutic Riding Clubs must be ***nationally*** accredited by the Professional Association of Therapeutic Horsemanship. **b. Humane Societies and nonprofit rescue organizations must be in good standing and exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code.** However, they are subject to any fees required to register a horse not previously registered, or for transfer to a new ownership.

### **SECTION IV. CERTIFICATE CHANGES & REPLACEMENTS**

#### **F. EXEMPT CORRECTIONS**

Within thirty (30) days from the time the Certificate of Registration is mailed from the Registry office, for no additional charge, the owner may return the certificate to the Registry for correction of inaccuracies, accompanied by necessary documentation for the change. Such corrections do not include name changes.

***For markings and color corrections for new registrations, the owner may return the certificate, for no additional charge, if submitted within twelve (12) months of the foaling date. Current color photos must accompany the certificate.***

#### ***Did You Know?***

The Statement of Registration and Recorded Ownership found on your horse's page on our website may be used at licensed USEF competitions in lieu of copying the actual/original Certificate of Registration.

A Certificate of Approximate Age of Horse form completed by a licensed veterinarian and current photos must accompany the application for registration when the dam is listed on a stallion's stallion service report for more than one breeding season, and foals resulting from those breedings have not been registered by December 31 of their foaling year.

If you need to pre-order a DNA kit for a foal registration order forms can be found on our website at [www.saddlebred.com](http://www.saddlebred.com), Registry, ASR Forms, Obtain a DNA hair kit. If you would like to order a DNA kit for an unidentified horse, order forms can be found on our website at [www.saddlebred.com](http://www.saddlebred.com), Registry, ASR Forms, DNA kit and Search of Lab Database.

Conditional registrations are valid for six months. ASR will not record any further transactions concerning an

animal as long as the registration is conditional. A \$50.00 reactivation fee may be charged for conditional registrations where the DNA kit and hair sample are submitted to the DNA testing lab more than six months after the conditional registration is issued.

Primary responsibility for obtaining and submitting any documentation required to complete a business transaction with the Registry rests with the owner of the horse. The current owner is responsible for all contact and/or correspondence with prior owners to obtain appropriate transfer forms or affidavits. When the current owner requests assistance from the Registry to obtain these documents, if the Registry elects to so assist an additional fee will be charged for this service. See Section XI. regarding Fees. This type of assistance is available only on an "as time permits" basis.

The Registry cannot make a determination of legal ownership, and therefore, cannot intervene among parties in ownership disputes or any other type of dispute. If the parties cannot resolve the dispute among themselves, they are advised to seek legal counsel.

Name Claiming is an option when no name choices are listed on the application for registration at the time of submission, the ASR will complete the registration process (registration number will be assigned) provided all other requirements for registration are met. Owners of unnamed "registered" horses will be required to submit a Name Claim form along with a Name Claim fee before the Certificate of Registration will be issued. The ASR will not record any further transactions concerning an unnamed animal until a name has been officially claimed.
